

The backpack of the class

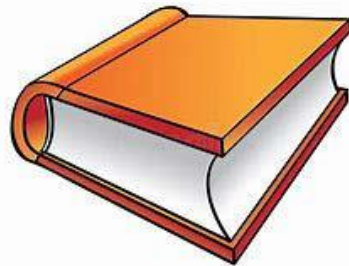

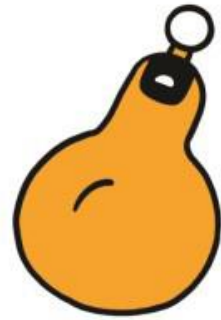

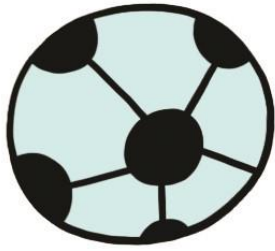

Make the game ready : cut all the pictures and glue the backpack picture on an envelope.

Play with your partner :

- Make a pile of all the pictures. One pupil takes a picture from the pile and decides if he/she would or would not take it on the bike journey.
- If yes, he/she puts it in the backpack envelope.
- If not he puts it beside.
- The other pupil does the same. When there is no more pictures, check if your answer is correct or not with the « solution document »
