

## Exercices les fractions

Écris sous la forme de fractions les longueurs suivantes

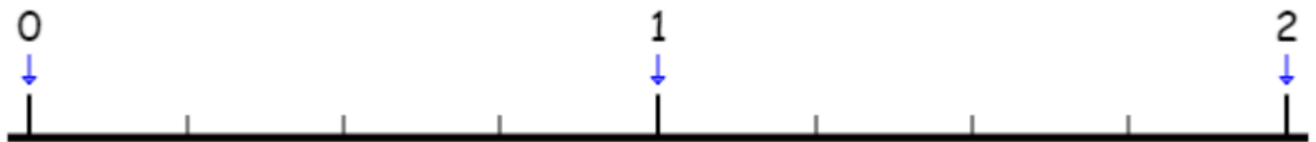

Place les fractions sur les droites graduées.

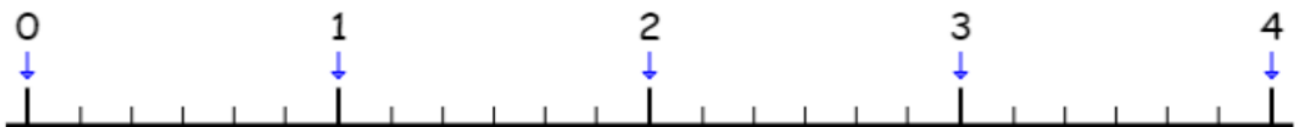

$$\frac{2}{8} - \frac{6}{8} - \frac{8}{8} - \frac{4}{8} - \frac{1}{8}$$

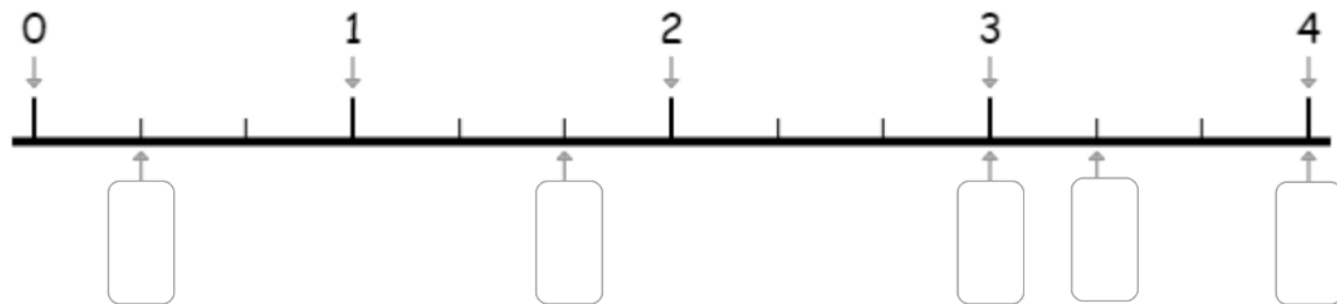

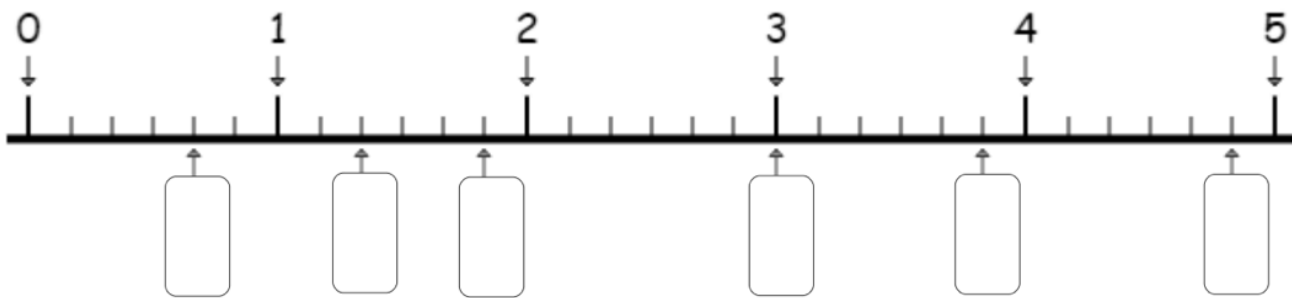

$$\frac{3}{4} - \frac{1}{4} - \frac{2}{4} - \frac{4}{4} - \frac{7}{4}$$

$$\frac{3}{6} - \frac{1}{6} - \frac{2}{6} - \frac{4}{6} - \frac{7}{6}$$

Écris les fractions demandées dans les cases.

Place les fractions sur les droites graduées et encadre les entre deux nombres entiers.
